SUMMARY

Software Engineer with experience building backend systems and API-driven applications using .NET, SQL Server, MongoDB, and ReactJS. Skilled in system monitoring, troubleshooting, debugging production issues, and developing reliable, scalable software across frontend and backend layers.

EXPERIENCE

.NET Full Stack Angular Intern – Cognizant Feb 2026 – Present

- Developing enterprise-level web applications using .NET, Angular, HTML, CSS, and JavaScript.
- Designing and consuming RESTful APIs while ensuring scalable and maintainable application architecture.
- Building reusable frontend components and integrating backend services for seamless user experiences.
- Collaborating in an agile development environment to develop, test, and enhance real-world business applications.

Software Development Intern – MassMutual India 2025

- Contributed to development of an Insurance Premium Calculator using ReactJS and Spring Boot.
- Developed responsive user interfaces and integrated RESTful APIs for premium calculation workflows.
- Collaborated on backend services and business logic to ensure accurate premium computations.
- Worked with cross-functional teams to test, debug, and enhance application performance and reliability.

PROJECTS

Medicore360 – Healthcare & Patient Management System

- Built a full-stack healthcare platform using Angular, .NET, and SQL Server to manage patient records, appointments, and billing workflows.
- Developed RESTful APIs with .NET and implemented role-based access control to ensure system security.
- Designed and optimized SQL Server queries for efficient data retrieval, scalability, and high application performance.
- Integrated frontend and backend modules to provide a seamless and reliable user experience across healthcare operations.
- **GitHub:** <https://github.com/Ajay-Kanneboina/Medicore360>

Insurance Premium Calculator

- Developed a full-stack insurance application using ReactJS, Spring Boot, and MySQL to calculate insurance premiums dynamically.
- Designed and integrated RESTful APIs to process user inputs and generate premium estimates efficiently.
- Built reusable React components and implemented responsive user interfaces for enhanced user experience.
- Developed backend business logic and optimized database operations for accurate and scalable premium calculations.
- **GitHub:** <https://github.com/AJAYKANNEBOINA/MassMutual>

TECHNICAL SKILLS

Languages	Java, Python, SQL, JavaScript
Backend	Spring Boot, .NET, REST API
Databases	SQL Server, PostgreSQL, MySQL, MongoDB
Frontend	Angular, React.js, HTML, CSS
OS & Network	Windows, Linux, Networking Fundamentals, TCP/IP
Monitoring	System Monitoring, Application Maintenance, Debugging, Troubleshooting
Tools	Git, Docker, Postman, Streamlit

EDUCATION

B.Tech in Computer Science and Engineering	2022 – 2026
Vardhaman College of Engineering, Hyderabad	CGPA:9.43
Intermediate (MPC) – TGBIE	2020 – 2022
TSRJJC Boys, Sarvail	98.9%
10th Class – BSET	2020
Sri Vyshnavi High School, Kodad	CGPA: 10.0
